Commendation is in order for **Lt. Chris O'Conner**, 503rd MP Bt, 3rd Army HQ.

For sometime there has been a discussion in how to figure a cost for our historical traveling exhibition and the personnel associated with it. What if a request came in just for General Patton or one for all of the equipment and our 3rd Army show. How would we the figure cost. There are any number of

12th Armored Division Reunion Greatest Generation Abilene Texas

Five 3rd Army members attended this excellent event. They were General Patton (Denny Hair) Brig Gen. Hobart Gay (Michael Maloney) Col. Bill White, Sgt Scott McKinley and K9 Willie as "Willie." We were there as the guest of the 12th Armored Museum, which is a very fine museum. We were privileged to meet some of American greatest generation and families. We were in a city wide parade on Saturday August

12th Armored Division: A brief history

Origins of the 12th Armored Division

The 12th was created on September 15, 1942. On 15 September 1942 the United States Army activated a new unit, the 12th Armored Division, at Camp Campbell, Kentucky. The first commanding officer of the Division was Major General Carlos Brewer.

They were nicknamed the "The Hellcats" in early 1943. In early 1943 the commanding officer held a competition to come up with a distinctive name for the division. Private Francis Beckman submitted the winning entry, earning a three-day weekend. His choice--The Hellcats--became the nickname for the 12th Armored Division.

After arriving in France they participated in the Liberation of France and killed an estimated

300 Germans, wounded 850, and captured 550, while losing 23 Americans killed.

Patton and the Third Army

After the successful campaign to seal the Colmar Pocket and drive the German enemy from French soil, the Hellcats assumed a role they loved to play—spearheading an Army. During March General George Patton, commander of the Third Army, borrowed the 12th Armored Division from the Seventh Army.

From March forward they moved through Trier to the Rhine, and then Danube and Dillingen Bridge, Austria and the End of the War

combinations and any number of locations through out the United States that a request might come from. Lt. O'Conner took the problem and developed a solution to it. We now have a program that will figure the cost and any number of combinations for anywhere in the country. It was programed in M.S. Excel and does the calculations automatically.

5th. We then proceeded to the museum where we had exhibits outside for a while until the heat brought us all back into the museum. Also in attendance was the Nimitz Museum and Marvin Schroeder was there and it was good to see him. Gary Haas of the MVPA Arrow Head Chapter brought several vehicles and there were also local reenactors as well.

We really enjoyed the visit. It was time well
